

Halifax
Regional Centre for Education

Role: Teacher

School Name: Halifax Regional Centre for Education

How did you incorporate the use of the pen?

Students were given an opportunity to use the Pen to read text and then asked if they see any benefits from using it. Students that struggled significantly with print were very interested!

How long did it take you to use the pen accurately?

5 minutes – I had no training.

Did you feel confident with the pen and its features?

Yes!

How much training did your students require to become confident users?

Students used the Pen with minimal instruction.

Were there any features you felt were missing on the pen?

Not sure of all the features.

Were students encouraged by its potential once familiar with its features?

3 students were very excited and wanted to have access to the Pen daily.

Would you recommend the pen, and if so why?

Highly recommend for students that express an interest to read books beyond their level, textbooks, worksheets etc.

If you could become part of the design team what feature would you add and why?

Different colors.

Other comments:

This pen is awesome!
